International Journal of  
*Molecular Sciences*  
an Open Access Journal by MDPI

## A Short Introduction of IJMS

The Spanish Society for Cell Biology (SEBC) is affiliated with MDPI journal, [International Journal of Molecular Sciences](https://www.mdpi.com/journal/ijms) (IJMS, ISSN 1422-0067, Impact Factor: 3.687). The IJMS provides an advanced forum for molecular studies in biology, chemistry and biophysics. Our aim is to provide rigorous peer review and enable rapid publication of cutting-edge research to educate and inspire the scientific community worldwide. IJMS is indexed by the Science Citation Index Expanded (Web of Science), MEDLINE (PubMed) and other important databases. Manuscripts are peer-reviewed and a first decision provided to authors approximately 17 days after submission; acceptance to publication is undertaken in 4.9 days (median values for papers published in in the second half of 2018). The benefits for SEBC members are as follows:

- A certain discount on the article processing charges to publish in IJMS
- Discounted publication fees for open access books;
- Sciforum.net platform for organizing SEBC conferences and conference organizing services at preferential rates. SEBC as well as each of its members will be able to use the platform free of charge if self-managed;
- The possibility for the society and its members to post job announcements free of charge on the website of IJMS.

If you have any questions, please feel free to contact the president Dr. Pedro M. Fernández Salguero ([pmfersal@unex.es](mailto:pmfersal@unex.es)) or the editorial office ([ijms@mdpi.com](mailto:ijms@mdpi.com)).
